I have a letter here signed by Governor Whitman to Browner recommending we list the LCP Chemicals Site, located in Linden, NJ on the NPL.

I guess NJ came through for us on this one. I'll stop by later to drop it off.

Joe I know that Pirnie submitted a HRS screening letter that you approved in January. Now that we have the letter from DEP concurring in placement of the site on the NPL what is the soonest that Pirnie can have an HRS package ready? I would imagine that it shouldn't take too long since they just completed the SIP and the screening letter.

Hi,
Forwarding Dennis' LAN message concerning the placing of LCP Chemical on the NPL. Lets
please discuss our role and the use of this as a possible SACM site.

Thanks,
George
